Installation Guide

ABOUT OUR PRODUCT

PiFocus is a management service which helps parents be an active member of the child's digital journey.

To use the service:

- Install **My Device** on the child's laptop
- Install **PiBook Parent** on the parent's mobile

For child -

Name of the app - My Device

Check whether the child laptop is windows or android and based on the type install relevant file.

Windows - insert link for webpage / Microsoft store

Android - insert link for webpage

1. Install the correct link.
2. After installation, open the app from the search bar.
3. The app will ask for some permissions → Yes on all
4. You will see a screen with the option “Install Components” → click on the button.
5. Within a few seconds, the components will be installed automatically.
6. That’s it – installation is complete.
7. Now you are ready to use the My device app.

For parents -

Name of the app - PiBook Parent

Based on the mobile type (iOS or android) install relevant files.

Android - insert link for webpage / Play store

iOS - insert link for webpage / App store

1. Open the app → enter your mobile number → tap Get OTP.
2. Enter the OTP received to log in.
3. Add your Name and select your Relation (e.g., Mother/Father/Guardian).
4. Scan the QR code from your child’s device to connect.
5. Installation is complete. Now you are ready to use the Pibook parent app.
